1/21, Vishal Khand, Gomti Nagar

Lucknow, U.P. - 226010

## **MISSION AND GOALS**

Black Hat Coders IT Solutions, is a software company based in Lucknow, India dealing in various IT related software products and it's development. The company also design and develop websites for well stabled business as per the client's requirement.

Black Hat Coders IT Solutions also deals in making a company name a familiar brand over internet and social media through our Search Engine Optimization Services and Digital Marketing services.

## **WHY CHOOSE US?**

We certainly understand your dilemma that how difficult it's to choose an option out of innumerable available options. The market for sure is very competitive and there is nothing wrong in having trust issues regarding the quality of services provided. We thereby make an effort to give you a short introduction on us which hopefully would answer your queries and also assist you in making a worthy decision.

## **UNIFORM FEEL & LOOK**

We promise to maintain a similar feel & design of the application on multiple platforms, provided, there is a single coding on all of them. For this, we have a team of mobile application developers with different levels of expertise entrusted with the task they specialize in.

## **MARKETING MADE SIMPLE**

We create apps for you to market your message in a simple manner. This is so easy with the help of an app as you do not need to create a niche message to reach to a specific audience.

You can do it with the use of a generalized message. With a unique viewpoint for every application and target-user, we develop apps that generate business for our client.

We serve as one-stop solutions for mobile app consultation, discovery, design, development, maintenance& support.

We make sure not to compromise on our professional guidelines, we aim at working with immense diligence so that our customers are always satisfied and thereby no complaints are raised against us but at the same time we welcome all suggestions and constructive criticisms that bring about the better in us.
